List interface index

MRTG Configuration Wizard

Script status : Checking SNMP. Reset Window

---

Step 1

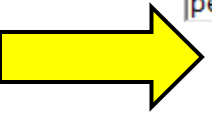

Device Name/IP:

SNMP RO :

MRTG Folder :  Folder present.

Perl binary installed :

List interface index

Script status : **SNMP check success.**[Reset Window](#)

## Step 1

Device Name/IP:

192.168.11.114

SNMP RO :

private

MRTG Folder :

c:\mrtg-2.17.4

**Folder present.**

Perl binary installed :

perl

[List interface index](#)

## Step 2

Please select an interface and type of graphs for MRTG polling :

"FastEthernet0/0"  
"Serial0/0"  
"FastEthernet0/1"  
"FastEthernet1/0"  
"FastEthernet1/1"

☒ **Select All**☐ Traffic Utilisation☐ Interface Discards☐ Interface Errors☐ Queue Drops☐ Output Queue Length☐ Interface Collisions☐ CRC errors☐ Unknown Protocols

## Step 3

[Create MRTG Files](#)

MRTG Configuration Wizard

Script status : Please select an interface at Step 2.

Reset Window

Step 1

Device Name/IP:192.168.11.114

SNMP RO :private

MRTG Folder :c:\mrtg-2.17.4Folder present.

Perl binary installed :perl

List interface index

Step 2

Please select an interface and type of graphs for MRTG polling :

"FastEthernet0/0"  
"Serial0/0"  
"FastEthernet0/1"  
"FastEthernet1/0"  
"FastEthernet1/1"

Select All

☐ Traffic Utilisation

☐ Interface Discards

☐ Interface Errors

☐ Queue Drops

☐ Output Queue Length

☐ Interface Collisions

☐ CRC errors

☐ Unknown Protocols

Step 3

Create MRTG Files

MRTG Configuration Wizard

Script status : Creating MRTG files and folders....

Reset Window

Step 1

Device Name/IP:192.168.11.114

SNMP RO :private

MRTG Folder :c:\mrtg-2.17.4Folder present.

Perl binary installed :perl

List interface index

Step 2

Please select an interface and type of graphs for MRTG polling :

"FastEthernet0/0"  
"Serial0/0"  
"FastEthernet0/1"  
"FastEthernet1/0"  
"FastEthernet1/1"

☒ **Select All**

☐ Traffic Utilisation

☐ Interface Discards

☐ Interface Errors

☐ Queue Drops

☐ Output Queue Length

☐ Interface Collisions

☐ CRC errors

☐ Unknown Protocols

Step 3

Create MRTG Files

Delete files folder

Deleting all previous files at MRTG folder.  
c:\mrtg-2.17.4\192.168.11.114.1

OK

Cancel

Script status : Creating files at MRTG folder.  
c:\mrtg-2.17.4\192.168.11.114.1

Reset Window

### Step 1

Device Name/IP:

192.168.11.114

SNMP RO :

private

MRTG Folder :

c:\mrtg-2.17.4

Folder present.

Perl binary installed :

perl

List interface index

### Step 2

Please select an interface and type of graphs for MRTG polling :

"FastEthernet0/0"  
"Serial0/0"  
"FastEthernet0/1"  
"FastEthernet1/0"  
"FastEthernet1/1"

☒ **Select All**

☐ Traffic Utilisation

☐ Interface Discards

☐ Interface Errors

☐ Queue Drops

☐ Output Queue Length

☐ Interface Collisions

☐ CRC errors

☐ Unknown Protocols

### Step 3

Create MRTG Files

MRTG Configuration Wizard

Script status : **Completed MRTG files creation.**

Reset Window

Step 1

Device Name/IP:

192.168.11.114

SNMP RO :

private

MRTG Folder :

c:\mrtg-2.17.4

**Folder present.**

Perl binary installed :

perl

List interface index

Step 2

Please select an interface and type of graphs for MRTG polling :

"FastEthernet0/0"  
"Serial0/0"  
"FastEthernet0/1"  
"FastEthernet1/0"  
"FastEthernet1/1"

☒ **Select All**

☐ Traffic Utilisation

☐ Interface Discards

☐ Interface Errors

☐ Queue Drops

☐ Output Queue Length

☐ Interface Collisions

☐ CRC errors

☐ Unknown Protocols

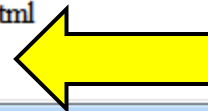

Step 3

Create MRTG Files

Device : 192.168.11.114

MRTG page : c:\mrtg-2.17.4\192.168.11.114.1\192.168.11.114.1.index.html

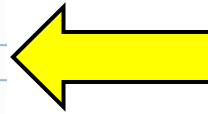

5min script file : c:\mrtg-2.17.4\192.168.11.114.1\192.168.11.114.1.vbe

Computer > Local Disk (C:) > mrtg-2.17.4 > 192.168.11.114.1
